

# Encyclopedia of *Awards*

**Merriam-Webster defines an encyclopedia as:**

*“A work that contains information on all branches of knowledge or treats comprehensively a particular branch of knowledge...”*

NCA offers the most comprehensive collection of Awards & Recognition in North America. As the leaders in recognition, our selection of products continue to remain the world's largest. From exclusive crystal and cast metal work of art, to stone, art glass, wood and a variety of other materials, the range of our selection is unparalleled. If you can't find the product you need for your event, it probably doesn't exist. However, if for any reason your exact request cannot be found, our custom divisions will create the perfect award for your requirements.

Trust the Experts. Contact our award winning customer service team today and put our experienced artisans to work turning your request into a masterpiece of recognition.

The Traviata Award  
is an assemblage  
of hand cut ebony  
optical crystal with  
angles built to frame  
a sliver of light

creating a sculpture of epic  
proportions. Narrow layers of  
aqua blue crystal accents give  
glints of color and light to this  
contemporary award.

Ebony optical crystal is fabricated into these classic tower and obelisk shapes, then sliced and inserted with aqua blue optical crystal. After the pieces are joined together the entire shape is smoothed and polished to create this modern masterpiece of craftsmanship; mounted to a black nickel finished cast metal base.
